HOW TO MEASURE YOUR FIREPLACE FOR GAS LOGS

Using a measuring tape, measure the following areas within 1/8” for proper gas log fit.

1. Front Width:______________
2. Back Width:______________
3. Depth:__________________
4. Height at lowest point:______________
5. Gas Line Location:______________
6. Gas Line inches into box:______________

To insure the right size is ordered, all measurements must be signed off by the installer. FING will not be responsible for incorrect measurements.
